8. DESCRIPTION OF THE ACTIVITY (fill in information in the following four blocks - 8a, 8b, 8c & 9)																													
8a. Activity: Describe the Overall Activity: The proposed project is the expansion of an existing valley-fill coarse coal refuse disposal facility. The expanded facility will be an up-stream extension of the existing refuse disposal area, all of which are located on mine owned property. The new site will be lined with three feet of clay. Upon completion, the site will be capped with two feet of clay and up to two additional feet of earthen material. Collection systems will be installed to: (1) divert groundwater, and (2) collect leachate for treatment, if necessary.
